- If your question is not listed here, please connect with me to resolve the same.

Commonly asked questions

Q. Is it mandatory to use Visual Studio Code (VSC) for this workshop?

- No, it is optional. Preferred choice will be VSC but you're free to choose editor of your choice.

Q. Can we use cypress without knowing javascript or typescript?

- No, cypress only supports javascript. So it is must that you know atleast one of the languages.

Q. I do not have any prior automation experience with any tool stack. Can I still attend this workshop?

- Yes, you can attend this workshop and learn about cypress and how we do automation.
- You might not be able to perform hands-on task but you can take notes on all topics/concepts related to automation.

Q. I'm new to API and don't have much insight on its working. Will it impact this workshop?

- Yes, we will be covering topics like API calling, syring/stubbing XHR request. So it is important for you to know how API works to understand these concepts.

Q. Will we create a framework during this workshop?

- No, we will just be exploring cypress features that are listed in the workshop [outline](#).

Q. Will we cover all the features of the cypress?

- No, we will not be able to cover all the features within 120 mins but we will look at the commonly used features that can be applicable to any project.

Q. Will we run cypress scripts from CI tool?

- No, we will using cypress runner to execute our scripts.

Q. Will we get enough time to do the hands-on implementation?

- I'll dedicate some time so you can do hands-on implementation but you need to be quick to match the pace or can code in parallel.

Q. Can participants ask questions during the workshop?

- No, we only have 120 mins to cover all the listed features. So will not be able to take any questions during the workshop.
- We have dedicated 15 mins after the workshop to take all the questions

Q. I have a query related to cypress?

- Please check cypress faq section
 - General → <https://docs.cypress.io/faq/questions/general-questions-faq>
 - Using Cypress → <https://docs.cypress.io/faq/questions/using-cypress-faq>
 - Cypress Dashboard → <https://docs.cypress.io/faq/questions/dashboard-faq>
- If your concern is still not resolved, please ping me to get it resolved.

Q. I need further assistance/help after the workshop for cypress

- Please feel free to DM me your concern on <https://www.linkedin.com/in/kunalashar25/>
